

# ENGINEERS WITHOUT BORDERS NEPAL

Uniting Engineers, Transforming Lives

Quarterly Newsletter - June 2025

## Key Highlights

### Immersive Study Tour 2025: A Journey of Learning, Collaboration, and Community

The Immersive Study Tour 2025, organized by Engineers Without Borders Nepal in collaboration with IngOG+, brought together changemakers from Nepal, Switzerland, and Singapore to explore rural resilience, sustainability, and intercultural exchange. From hands-on community engagement in Dhading to collaborative project ideation, the tour laid the foundation for lasting impact and future global partnerships.

## Innovation in the Terai: How iLab Simara Sparked Creativity and Courage

From June 23-27, iLab Simara turned a school in the Terai into a vibrant hub of creativity and problem-solving. Students explored local issues, built hands-on solutions, and embraced innovation—from 3D printing to game design—with growing confidence. Funded and supported by WorldLink, the program didn't just teach tools; it nurtured mindsets, sparked ownership, and forged lasting bonds between mentors, learners, and their communities.
